ST Louis, April 8th. In the Virginia Convention, on Saturday, a motion favoring the immediate recognition of a Southern Confederacy was lost by a vote of 68 to 71. A notion to disavow secession views, and justifying secession only in the event of the failure of every constitutional resort, was lost by a vote of 22 to 114. This vote diminished the strength of the ultra-Unionists. Resolutions were adopted in Committee of the Whole that a Committee be appointed to wait on the President for the purpose of ascertaining the policy to be pursued toward seceding States, and giving the opinion of the Convention that the policy of the United States Government which preof 68 to 71. Later advices are understood to have been received from Montgomery, ordering further supplies to be cut off. No further communication will be allowed between Fort Sumter and the Federal authorities. The attack will be from the forts, and Major Anderson will soon surrender in self-defense, though it is believed an attempt will seriously be made at reinforcement. The danger is imminent, and members of the Convention wait here, expecting a conflict before Saturday.

Outhages upon Jewish Families.—An instance of gross outrages, committed by certain rowdics upon several Hebrew families residing in Ohio street, has just been brought to our notice. During the erection of Capt. Thomas' new brick building on Commercial street, below Montgomery, Messrs. Cohen Brothers, and other small storekeepers were obliged to move with their families from the old wooden buildings, to houses on Ohio street. A gang of rowdies took upon themselves to prevent the residence of these families in that vicinity, and yesterday morning commenced an aggravated assault upon the houses occupied by them, with the view of "cleaning them out." About three o'clock they commenced an assault with stones and briekbats upon several of the houses. One large rock went through a window, demolishing the sash and landing upon a bed, in which were a sick woman and her newly born child. Had the rock struck either it must have killed them. They were forced to fly from the room and take refuge in the back part of the tenement. The house next to that occupied by R. W. Fishbourne, of the United States Surveyor-General's office, has also a number of windows smashed in. In another house, a fragment of granite a foot long was thrown through the shutters and window, smashing both, and doing damage in the room. In the house opposite, a brick passed through the window of the upper story, and another through the window and shutter of the basement. This amount of damage was certainly done, and how much more we know not. We have only to be tried for the murder of Mr. Newell, the Supreme Court having decided the act of the Legislature, granting a change of venue, to be constitutional.

## LETTER FROM LYTTON CITY.

LYTTON CITY, April 20th, 1861. EDITOR BRITISH COLONIST :- The town of Lytton is 68 miles from Yale, and has been doing a brisk trade lately with the Car-

iboo mines.

The advantage that Lytton possesses at this time of the year over its rival, Cayoosh, lies in the fact that the traders here have received goods per boat from Yale at the rate of 6 cents per pound; thus enabling them to undersel the trader at the latter town, who have had to pay 8 cents per pound freight from Douglas.

A WAGON ROAD—CHEAP FREIGHT.

The great desideratum of Lytton at the present moment is to have a wagon road constructed from Boston Bar, and a petition has lately been sent to the Governor for that purpose. The distance is 38 miles, and as one half of the route lies across flats where no grading will be required, it is estimated that the expense will not exceed \$50,000.

Should this road be made, packing will be cone from Yale at from 4 to 5. cents per

be done from Yale at from 4 to 5 cents per pound, a result which would place the Yale and Lytton route beyond competition.

LYTTON THE FAVORITE.

The majority of packers give this place the preference over Cayoosh owing to their being able to buy cheaper. They also prefer the Thompson River trail, as there is little or no difference in the distance and they can obtain better feed for their animals. More than 20 pack-trains, averaging 20 ani-Quesnelle River.

More than 20 pack-trains, averaging 20 ani-Quesnellé Itiver.

THE TRAIL TO CARIBOO.

On leaving Lytton they keep along the Thompson for 24 miles, where they cross at Cook & Kimball's ferry, and take the Bonaparte River trail. The country is level here, and nearly all the animals in the carrying trade winter on the magnificent pastures which abound in the neighborhood of the Bonaparte. This road strikes the main Brigade trail leading to Williams' Lake, higher up than the one from Cayoosh, but the exact distance between them I have been unable to learn.

been unable to learn.

The upper Thompson River, which flows from a large lake, is said to be navigable for steamers, and the lake connects with a chain of other lakes, extending far to the north in the direction of Cariboo. It is therefore not improbable that a new route partly navigation. improbable that a new route partly naviga-ble for steamers, will yet be established be-tween Lytton and the Northern mines.

tween Lytton and the Nothern mines.

THE DUTY OF THE GOVERNMENT.

There are several great inducements for government to lose no time in establishing a good road through the valley of the Lower good road through the valley of the Lower Fraser. One of the principal of these is that a road from Boston Bar to Lytton would go far to promote the speedy settlement of the lands in the neighborhood of the Bonaparte, Thompson, and Nicolaus Rivers, which in an agricultural point of view are certainly the strongholds of British Columbia. Added to this, mining on the Fraser line its infancy, and will, for a long time to come, give employment ber of miners to whom cheap transit for provisions is everything.

TO THE INTENDING IMMIGRANT.

very desirable that miners and others

It is very desirable that williers and others proceeding to the Cariboo country should see a little of the mining that is going on on the banks of the Lower Fraser, which would give them an insight into the nature of the interior districts of Parish Carlot. of the mining districts of British Columbia, and probably be of service hereafter. From Hope to Lytton the entire route lies through steamer, So uv; from Tare to Lytton the distance can be traveled by an expert pedestrian in two days, but to miners who wish to travel economically and pack their own blankets, I should put down the time at three days. Provisions can be obtained at reasonable rates all along the route. At the restaurants, meals are \$1 00 each. The whole journey need not occupy more than five days, and the total expense, (including two tolls, 50 cents.) would be from \$15 to \$20, according to whether parties camped out and cooked their own provisions, or put up at the restaurants. The cost part of the trail is from Kanaka Bar to Lytton, about 9 miles, which is rather hilly, but on the whole there is nothing to gramble at.

The riverfrom Boston Bar to this place is considered navigable for steamers nice.

The rivernom boston har to this place is considered navigable for steamers nine months out of the twelve. The greatest obstacle to encounter is in a canon three miles above Kanaka Bar; but this is by no means insurmountable, and I should not be surprised to see a beat steaming up these waters before long.

THE COUNTRY.

The country around this part of the Fraser is by no means what I expected to find it. Instead of thick woods extending to the water's edge, a series of flats, benches and rolling hills, slightly timbered, extend for some distance on both sides of the river; and

some distance on both sides of the river; and I heard that higher up towards Cayoosh the valley presents a still better appearance.

THOMPSON RIVER.

The Thompson is about 40 yards wide at its mouth, and its blue waters can be traced from some distance mingling with the Fraser which appears quite muddy by the contrast.

MORE ABOUT THE INDIANS.

The Indians here have a very good character, and I learn that the storekeepers often give them credit for goods and find them. ten give them credit for goods and that them prompt in their payments. Some of them engage in mining and employ others to work for them. These typees go into a store and order a certain amount of flour, beans, bacon, &c., and after inquiring the "demed total," come down with the dust in a most as bidden like fastern. un Indian like fashim.

COARSE GOLD.

A trader showed me to-day about \$500 worth of gold (not amalgam) which had taken from Indians. It was Thompson River gold and consisted chiefly of the sort called scally. Some of the pieces weighed \$2 50. I also saw a nugget worth \$22, which, together with another of \$20 and one weighing \$5, were obtained from the same river last year. The pieces I saw resembled the Cariboo nuggets in shape, but were of a much lighter color. lighter color.

NEW DIGGINGS.

I believe I mentioned in my last that a tributary of the Thompson (the Tronquille River) was being worked by a number of Chinamen. A party of men are also working on a tributary near the Kamhoops. Taking these discoveries into consideration, it is extremely probable that a rich mineral district exists to the eastward of this place. Should this prove to be the case, Lytton will occupy a very contral position to the gold fields and must become a large place.

TO BUSINESS MEN.

gold fields and must become a large place.

To business Men.

To parties wishing to establish themselves in business in British Columbia, I should not hesitate to recommend this town as a most desirable location. Packing can be done to the Similkameen from here at 8 cents per pound by the Nicolaus river trail. I hear, on very good authority, that packing will certainly be done at 6 cents, and probably as low as 5 cents, from Yale to Lytton this summer.

this summer.

FOR CAYOOSH.

As the pack train, which I intended starting with to Cariboo, is going to load at Yale, and will not be here for ten days, I shall go on to Cayoosh, and may either start from there or return to Lytton.

ARGUS.
P. S. Prices of provisions at Lytton are as follows: flour, \$11 per bbl., beans, (Bayos) 15 cents per lb., bacon, 34c., tea, 70c., sugar, (China) 22c., coffee, 38c. These wholesale quotations.

More Secession Fruit.-The telegraph has already briefly informed you that Eugland and France contemplate sending over and and war vessels to our coast at an early day. The news was communicated to the and is as follows: "The French and English Governments are fitting out a powerful fleet of war steamers for the United States." fleet of war steamers for the United States."
These suggestions came from England, and France will furnish on her part three of her first-class new frigates; the English contingent will perhaps be larger. The precise object of this fleet it will be impossible to ascertain, as it will probably sail with sealed order. We may surmise, however, that it is intended as an audience for the struggle which is soon to take place between brothers and friends in the United States—as a sort of escort of honor for the funeral of the

We do not suppose of course that the fleet goes out with any hostile inrent; its osten-sible errand will be the protection of English and French subjects. But it is the custom and French subjects. But it is the custom to send fleets "of observation," when any great war is going on in a foreign country, and while observing, to pick up any little ad-vantages that may offer for themselves; or when the sympathy of the fleet is all on one side, to send boats now and then accidenside, to send boats how and the accidentally between the contending forces, as England has twice done in the late Sicilian war, so as to protect a suffering friend at the right moment. Spain, also, although not working in concert with France and Condense of the state of the water's suffering to the state of the water's state of the state of England, is preparing to send to the waters of the Gulf of Mexico a formidable force in men, ships and material. These move-ments may involve the gravest consequen-ces. The descent of an Anglo-French fl. et on a Southern port, in consequence of the tarring and feathering of an English ship captain, would be "coercion" of the most practical character .- Cor. Alta.

Government street, north of Yates street, receives by every steamer from San Francisco a large supply of newspapers and magazines, which are sold at the Hope to Lytton the entire route lies through a mining district where fresh discoveries are constantly taking place. For the benefit of those destrous of traveling by this road, I will give an estimate of the expenses to be incurred in going to Lytton from Victoria:—Victoria to New Westiminster, per steamer, \$6 00; New Westiminster to Yale, per steamer, \$3 00; from Yale to Lytton the distance can be traveled by an expert pedestrian in two days, but to miners who wish following established prices : American newspapers same prices by sending the cash with the order.

Files of the London Times, Liverpool Post and Manchester Guardian, received by every steamer and filed for the accomodation of the patrons of the VICTORIA NEWS DEPOT.

The Firemen's Parade. Great preparations were making yester day for the May-day parade of the Victoria Fire Department, to come off this afternoon. The indications last evening were that the weather would prove unfavorable, and those posted in such matters predicted a continuance of the miserable weather we have been blessed or cursed with for many days back. We visited the Engine and Truck houses yesterday afternoon, and found it e members of each company preparing for the festivi-

### Arrival of the Caledonia

The steamer Caledonia, Capt. Frain, arnived from New Westminster yesterday afternoon. She brought a few passengers and \$20,000 in gold dust.

The news from Cariboo is very encouraging. Mr. E. T. Dodge, of Cayoosh Flat, informs us that a letter has been received at the Flat from Antler Creek, the writer of which says that he is working but three or four hours each day and makes from \$35 to \$50 per day. A great number of miners are idle, owing to the depth of snow on the banks of the creek. It is thought that the amount of gold received from Cariboo this year will be ten times greater than that of

were supplied with provisions by pack-trains from Cayoosh.

Trade was lively at Cayoosh when Mr.
Dodge left. Goods continue scarce, and such a thing as obtaining an assortment of goods was impossible. Flour was the only staple with which the market was well sup-plied. THE GREAT ROBBERY OF MACHINERY .-William Rust any John Sullivan, arrested on Monday night last, for being engaged in be tried by court-martial. the \$10,000 robbery of machinery from the Albert Head Sawmill, came before the Police magistrate yesterday for examination. D. B. Ring, Esq., appeared as counsel for the prisoners. Sergt. Blake testified to the circumstances attending the arrest, as narrated in the COLONIST of Friday last. Officircimistances attending the arrest, as narrated in the Colonist of Friday last. Officer Taylor corroborated the sergeant's evidence in every particular. Mr. James Duncan testified to being the owner of the Albert Head Sawmill; positively identified portions of two cog wheels, (produced in coort) as belonging to the machinery of the mill; they would sell for old iron at tencents per pound; the portion of the machinery taken from the prisoners would cost in England \$4000 or \$5000; all the machinery jaken from the mill belonged to the mill; wisited the mill last Sabbath, and saw that nearly the whole of the machinery had been carried away; the system of robbery must have been a most extensive one; found four or five tons of the iron lying near the beach ready to be carried away. Mr. Duncan was submitted to a most rigid crossexmination by Mr. Ring, but his evidence remained unshaken. At the conclusion of this witness's statement, Mr. Pemberton said he would postpone the case until today to see if it could not be tried under the "Minor Offences Act, 1860."

THE BRITISH COLONIST Important to Ocean Steamers Entering

We have reason to know that the steamer Pacific would always enter our harbor were it possible to ascertain outside the exact state of the tide. There being no means at the entrance of the harbor to ascertain the depth of water, she has consequently discharged at Esquimalt. In order to obviate this difficulty, we learn that the Surveyor General has received instructions to place a tide-pole in a conspicuous place at McAuley's Point, graduated to show the exact state of the water in the shoalest part of the entrance to our harbor. By driving a pile and affixing to it a board with the depth of water in large letters at the shoalest part of the entrance, ocean steamers may easily ascertain with a glass, from some distance, whether there is water enough to allow them to enter. The expedient is so simple and inexpensive that it is well worth a trial. Should it answer the purpose, we

march to the Tiger house and receive that Company, from whence they will proceed to the Hook and Ladder head quarters, where that company will fall in line. The Chief Engineer and Assistant Engineer will be received on Wharf street.

The Tigers were also hard at work decorating their double-deck engine with evergreens, flags and flowers. The apparatus has been newly painted and gilded, and will be tastefully decorated for the parade. The brass mountings shine like new sovereigns. At 11 o'clock, this a. M., the Tigers will be presented with a superb banner, on behalf of the ladies of Victoria, by Miss Douglas at the residence of Thos. Harris, Eaq., Government street. Governor Douglas and suite will be present on the occasion. The company will parade about 40 members. The Hook and Ladder Truck was being rubbed up while we wore present, and it is intended that in political procession. In the back-room we saw piles of choice flowers the general procession. In the back-room we saw piles of choice for the company will parade about 40 members and the time mentioned, says he saw the end of what appeared to be a piece of blanket shall be second to none in the procession. In the back-room we saw piles of choice

THE LYCEUM .- Last evening "Black-eyed Susan, or all in the Downs," was performed to a good house. Mr. J. B. Robinson, in the character of William, played the sailor to perfection; Miss Robinson, in the character of Susan, was several times most deservedly applauded; and Mrs. Clara, as Dolly, gave entire satisfaction. The acrobatic feats of Mr. Witherell were truly wonderful; and Miss Susan's singing and dancing were encored. This evening, "Rule a wife and have a Wife," and the "Lottery Ticket," will be presented. will be presented.

ARRIVAL FROM NOOTKA Sound. - The yacht Templar, Capt. Fitz Stubbs, arrived from Nootka Sound yesterday morning, and brings the intelligence that the Kyulet and Chatzelet tribes of Indians at the north end of this island, have had a great battle in which the latter were victorious. Five Kyulets were killed, and Iwenty men and three women carried into captivity. The Indians along the West coast are preparing for war. Nothing later from Cap. Stamp's settlement.

A PRESIDENTIAL SNUBBING .- A letter has been received from G. W. Simonton, editor of the San Francisco Bulletin, confirming the report previously published by us of his having been most effectually snubus of his having been most effectually snub-bed by President Lincoln while attempting to dictate to that official as to the sort of company he should keep and the character of persons he should appoint to office. The President coolly burned the busy-body's notes before his face, and gave him to un-derstand that he had meddled with affairs that did not concern him. that did not concern him.

THE OVERLAND MAIL -A letter was yes terday received from the British Consul at San Francisco advising the authorities here that he had made such arrangements with that he had made such arrangements with the Postmaster of that city as would enable him to send the mails forward by the steam-ers in future. The overland mail reached here yesterday afternoon by the Petrel.

RACE BETWEEN THE GUNBOATS.—The gunboats Forward and Grappler had a trial of speed yesterday. They started from the Admiral's ship, proceeded around a buoy off Brotchie's Ledge, and thence back to the place of statting. The Fo ward was declared the victor by several minutes.

The bark Glimpse, on her way to San Francisco with a cargo of 600 tons of coal, put into Esquimalt yesterday morning preparatory to leaving for her destination. She will very likely sail to-day.

THE DESERTERS .- The eight deserters, arrested by the Police on Saturday night last, were marched to Esquimalt yesterday under guard of a file of marines. They will

LET DOWN EASILY .- William Barker, arested on Monday, on a charge of threaten ing to stab a Mr. Townsend, was yesterday discharged on his own recognizance to be of good behaviour.

BURGLARY .- The store of Mr. Copperman, Johnson street, was broken into sometime on Sunday night, and robbed of goods valued

MAIL FACILITIES. - The people of Salt Spring Island are generally obliged to send letters intended for this place to New Westminster, to insure safe delivery.

We were indebted yesterday to Capt. John Fleming for files of Sound and California papers.
